

Intellicate Schedule24 Resource Manager

Intellicate Schedule24 Resource Manager is an essential, easy-to-use software program for resource managers to efficiently deliver and manage an effective staff supply.

With the familiar look and feel of Microsoft® Office products, Schedule24 Resource Managers workflow is easy to understand and helps you manage your workforce strategy in less time and at a lower cost. You will be able to do so much more than just staff scheduling. Automated cost and working hour's calculations can help you safeguard business profitability and reduce risk.

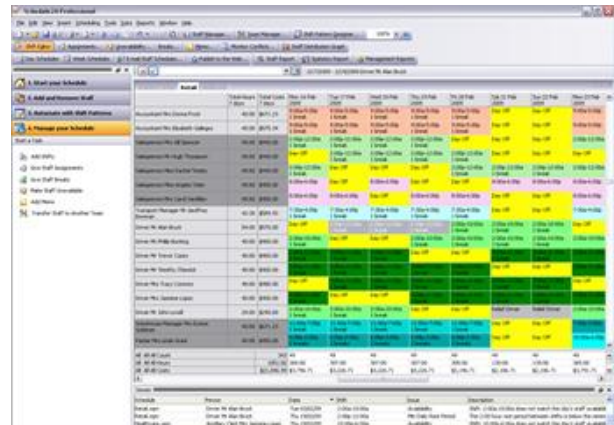

All your workforce management can be done from one location to provide comprehensive staff schedules and up to date management information anywhere in the organization.

Work More Efficiently and Effectively

Schedule24 Resource Manager is easy to use and delivers an integrated workflow that enables you to manage all the information needed for effective workforce management. Whether designing new shift patterns and publishing web schedules or carrying out a financial review and re-aligning the workforce, Schedule24 Resource Manager can help you see the cost benefits of change and help you implement it.

Easy to Learn and Use

With Schedule24 Resource Manager, you can get up and running quickly. It can be strategically deployed on standard office computers without requiring IT support and offers a shallow learning curve. The work area supports multiple views in a rich context based environment.

Safeguard Profitability and Reduce Risk

Schedule24 Planning a cost-effective staff supply to achieve business efficiency goals has now become much easier and faster. Struggling to make sense of disparate spreadsheets, working with paper records which go missing, and trying to keep ahead of complex work hour compliance are all instantly remedied with Schedule24 Resource Manager.

You can use Schedule24 Resource Manager to integrate all this information into one smooth workflow. You can plan and implement your staff deployment strategy and manage complex working arrangements that are in tune with business requirements. You can also monitor staff headcount, distribution and costs to make sure you deliver a balanced, targeted and efficient staff supply.

Automatic Conflict Monitoring (ACM)

With Schedule24 Resource Manager, you no longer need to manage endless checklists about staff availability or understand complex work hour legislation. ACM control uniquely audits any threshold breaches that arise so they can be resolved before publishing – not after. Expensive re-scheduling error and avoidable costs can be eliminated, and your exposure to risk reduced.
